

School City of Mishawaka
SchoolMessenger
Text Alerts

School City of Mishawaka will switch on the ability to send out text alerts through SchoolMessenger on February 1, 2016. In order to receive text alerts, three (3) things are necessary:

1. You must be in Infinite Campus (our student management program) in 1 of 2 ways:
 - As a parent/guardian – marked when your children are enrolled and setup in a household
 - As an employee – jobs that require the use of Infinite Campus

2. Your contact information must be correct in Infinite Campus
 - Phone numbers
 - Email
 - Changes can be made through the school office or through the Parent Portal

3. You must confirm your willingness to receive text messages from SchoolMessenger

To complete item 3 before February 1, 2016, text “Yes” to 67587. You will receive a text in reply saying you are registered. You must do this for each phone you wish to receive text alerts on that is registered through Infinite Campus.

On February 1, 2016, if we have a cell phone number in Infinite Campus for you AND you have not already texted “Yes” to the number listed above, you should receive a text from SchoolMessenger requesting you confirm your willingness to receive important text alerts form your child’s school. Reply with “Y” to complete the process.

We have attached a sheet with Frequently Asked Questions and Answers (FQA) – please take a look! If you have a question not addressed on the sheet, please send an email to kerchnera@mishawaka.k12.in.us.
